

# BALANCING VALVE

## Function

1. Flow Measuring by constant Kv or Cv Orific of valve.
2. Can regulating the flow by setting.

# oventrop

## Hydrocontrol VTR

### Female thread.

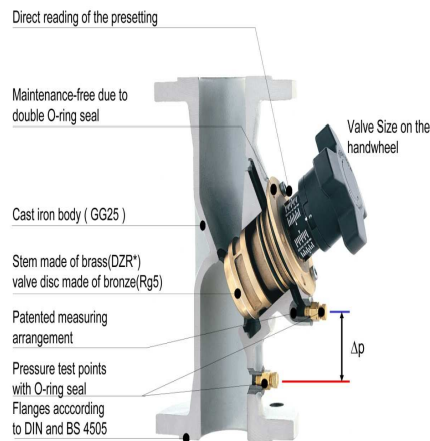

DN 10 to DN 65

( 3/8" to 2-1/2" )

Only one valve with 5 functions

- presetting
- measuring
- isolating
- filling
- draining

## Hydrocontrol VFC

Flanged connection and cast iron body.

Sizes: DN 20 to DN 400

( 3/4" to 16" )

Pressure: PN 16

Temperature: -10 to 150 °C

### Advantages:

- presetting
- measuring
- isolating
