

Total Solution for Refrigeration & Air-Conditioning Systems

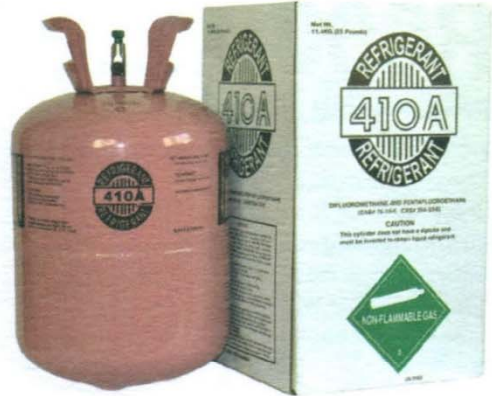

# R410A

Mixed Refrigerant

## Property and application:

R401A is a kind of mixed refrigerant, it is by the R32 and R125 composition of the mixture, its advantage lies in May, according to specific application requirements, to all sorts of properties, such as flammability, capacity, exhaust temperature and efficiency into consideration, body to synthesize a new refrigerant.

## Quality index and Technical index

Index/Value/Class	High-class product		
Chemical contents	R125/R32(50:50)		
Appearance	Colourless, not turbid		
Odor	No odor		
Purity	≥	99.8	%
Water	≤	0.001	%
Acidity	≤	0.00001	%
High boiling residue	≤	0.01	%
Molecular Weight	72.6		
B.P	-51.6 °C		
Critical temperature	70.7 °C		
Critical pressure	4.7699 Mpa		
ODP	0		
GWP	0.2
